## PROFESSIONAL SUMMARY

---

A hardworking individual with a strong commitment to achieving goals, driven by strong work ethics and consistent in leveraging and acquiring skills. As a collaborative team player, I'm passionate about optimizing data processing, deriving data insights and have a proven track record of working in fast-paced environments.

## EDUCATION

---

|                                                     |         |                       |
|-----------------------------------------------------|---------|-----------------------|
| PSG College of Arts and Science, Coimbatore         | 81%CGPA | June 2019 – July 2022 |
| Bachelors in Mathematics with Computer Applications |         |                       |

## TECHNICAL SKILLS

---

Programming Languages: Python|Review, SQL,  
Tools/IDE : Power Bi  
Database Tools : Oracle Database, KDB, MySQL  
Cloud Technologies : Azure Data Factory, Azure Key Vault  
Linux : File Manipulation and Basic command

## INTERNSHIP

---

**Dattendriya Data Science Solutions** **Jan 2022 – July -2022**

- Acquired fundamental Linux Skills and successfully manages partitions within the KDB database in a span of six months.
- Ensured data accuracy by ingesting and cleaning data to a database, improving data quality for further analysis and Dashboard utilization.

## WORK EXPERIENCE

---

**Associate Data Base Engineer | Rx Data Science | Syneos Health company** **Aug 2022 – Jan2024**

- Experienced in designing and implementing scalable pipelines using ADF for seamless data movement and transformation.
- Utilized various methods to process data within database such as flat/delimited files, ODBC, and ADF.
- Successfully configured an ODBC setup within the KDB environment to facilitate data integration.
- Managed Dare (Data at Rest Encryption) in the KDB and implemented script modifications to access the database using the encryption key.
- Developed Q script that divides a single data file into multiple files based on product, resulting a 2-hour manual process to a 3-minute automated operation.

## POWER BI PROJECTS

---

- **[Employee Budget Planning Dashboard](#)** – Cleaned and enriched employee data using the Invoke function, implemented dynamic salary projections with compounded annual increases, and designed responsive visuals with parameterized file settings for streamlined, accurate budget analysis.
- **[Retail Sales Performance Dashboard](#)** – Cleaned and prepared data, implemented dynamic parameters, and designed responsive visuals to deliver actionable insights on revenue trends, top markets, and customer performance.
- **Manufacturing Downtime Analysis Dashboard** – Leveraged JSON data to visualize factory and device downtime for actionable operational insights.

## ACHIEVEMENTS

---

Holder of “B” and “C” certificate in the National Cadet Corps (NCC). Demonstrated commitment to leadership, discipline and successful completion of training and activities.
